There is a minimum set up charge of \$40 per color.

First of all, thank you for considering us to be your Powder Coater. Our goal is to do a quality job that puts a smile on your face.

The prices on these pages are for stocking single stage colors. Custom colors, candies, neon, two stage and clear coat, either in satin or gloss are available at an additional cost. Let us know what you have and the color you want so we can give you a price and approx. time to complete the job.

These prices include media blasting on all parts. Some parts such as aluminum that have been previously coated will have to be chemically stripped. Unless noted in the price, there will be an addition charge. This will be discussed before the job is started. All alloy wheels are stripped and it is included in the price.

If you don't see a part or you have a special part, just email us a picture and a brief description and color. We'll get back to you with a price.
